St. Louis, September 25.—The hearing in the great telegraph suit of the Western Union against the Kansas Pacific railway company, before United States Supreme-Justice Miller and United States Circuit-Judge M'Crary, which commenced on Tuesday last in this city, terminated to-day. The hearing was upon the motion of the defendhearing was upon the motion of the defendants to dissolve the injunction secured by the Western Union telegraph company in February last, in Kansas, and under which the company recovered back the possession of its lines seized by the Gould combination, which has secured the control of the Kansas Pacific road, and which sought to put the lines under the control of the railroad and the American Union telegraph company. Several hearings have heretofore been had in different branches of the case. It had been alleged by the railroad company that its contract with the Western Union company, under which the latter held and operated the lines, was yold and in operative. To meet this and other latter held and operated the lines, was yold and in operative. To meet this and other objections the Western Union awarded its original bill, with many allegations, and, among others, that aside from the contract, it derived titles to the lines throughout the United States telegraph company, which last company was permitted by a special act of congress to build lines on the Kansas Pacific and had, prior to its consolidation with the Western Union, constructed lines thereon. The hearing has not only attracted particular interest on account of the important issues and had, pror to be conspicted in with the mechan and be compared with this and the precent control control of the less than one nor more than fifty dollars.

A second note from the Porte to its repretentatives was issued on the twenty-second instant, which finally refuses to order the surrender of Dulcigno unless the naval desmonstration is abandoned. Diplomatic circles consider that the sultan thereby abandons the pretext of resistance by the Albanians, and determines to oppose the surrender in his own name. It is asserted that the sultan was led to this change in his attitude by learning that the powers had arranged that after the settlement of the Dulcigno question the ships should proceed to Volo to coerce the settlement of the Greek question. The American corvette Nipsic is expected here to support the demand for the trial of the assassims of the American missionary, Dr. Parsons.

—Yesterday afternoon George Adams, employed as a porter in a Main street grocery house, attempted to commit suicide by leaping into the river near the foot of Beale street. He was prevented from carrying out the rash attempt successfully by some levee laborers. No cause is assigned for the rash endeavor.

—About the worst nuisance in town is the fellow who, seeing you eating your meals at a restaurant, sits down uninvited in front of you and bores you to death with a rehash of his own personal affairs. Some people never know when to cease talking "shop." Cannot the restaurant keepers apply mustles for those incorrigible bores.

—As we have many times announced in these columns, the brethren of the "mystic tie" propose early next month to have a revival of their own, in which only the initiate can share. This is to be followed by a banquet, to which the illustrious brethren who will be present at the work have been invited and in which they will participate. The invitations to this have already been issued. They are very handsome and we need bearing. the three th ing. Of course we cannot particularize. Enough to say that they reflect credit on the taste of Brother Bun F. Price, master of the lodge, to whom the craft is greatly indebted as one of the living lights of Masonry.
